World Environment Day Celebration - Nature Photography\_5<sup>th</sup> June2022

It is something which surrounds us all the time and everywhere, but it would be pitiful if we fail to hear its sound, miss to notice its hues and fragrance and ignore its mesmerising aura. It touches every aspect and dimension of our life, but do we pay any heed to its very existence which forms the basis of our own existence?

This is the high time we wake up to protect and conserve our environment. The students of DIMR celebrated this World Environment Day by going out into the nature around them that they pass through every day with a different perspective to gauge its expanse and to sink into its beautiful ambience. They clicked some astonishing photographs capturing the natural beauty from the campus.

It was like going back into the lap of the nature which exists around you, relishing and living it with the sense of due diligence and utmost care!

#mbadimr #holisticlearning

**Learning Outcome:**

- The students understood importance of going back into the lap of nature.

- To provide companionship, emotional support, therapeutic occupation, and recreational facilities, and activities to these children.
- To sensitize students to the difficulties and problems of differently abled children and to become aware of the joy of serving and being with these children

**Event Description:**

The smiles on their faces were infectious, they were teeming with energy and enthusiasm and their implicit and unblemished innocence captivated every single person present in the campus.

The day, Saturday, 5th March 2022 was very special and remarkable in the memory books of DIMR. The Differently abled children and the Founder of Aniket Sevabhavi Sanstha, Ms. Kalpana Varpe were invited by the institute for a special program 'My Special Life Journey' to mark the celebration of Women's Week being celebrated in the institute with different activities and events.

The arrival of the Special Guests was made very special by our students and staff with a warm welcome by clapping for them, offering some scrumptious snacks, roses and a gift to each differently abled child and they were exhilarating with extreme happiness.

The Director of DIMR, Dr. Sajid Alvi felicitated the Founder of Aniket Sevabhavi Sanstha, Ms. Kalpana Varpe with a sapling and a memento on the occasion. Ms. Kalpana Varpe shared her journey about how she rose up to the situation of being estranged after giving birth to a differently abled child. She narrated her arduous struggle against all odds and her inspiring plight of overcoming many stumbling blocks. She answered questions from DIMR students about what keeps her going on, what challenges her organization faces while providing refuge, rehabilitation and education to 55 differently abled.

Ms. Kalpana Varpe's discourse left everyone heavy hearted and numb eyed, but soon after that again to enliven the atmosphere the ever vivacious and effervescent differently abled children of Aniket Sevabhavi Sanstha took up the stage to cheer up the crowd with their mesmerising dance performances on 'Ganesh Vandana', 'Betiyan' and 'Taare Zameen Par' songs. This was enough to transfix the students and staff of DIMR in awe of the overflowing energy, cheerfulness of the children embedded with pure innocence.

These differently abled children took everyone else on the stage and made them tap their foot in tune with them on various dance numbers. After these performances all children were taken to the sports ground, where they had fun with the students of DIMR playing cricket and other games, posing vividly for the photographs, singing songs, reciting poems and sharing stories.

Everyone who witnessed this manifestation of sheer innocence, buoyancy and utter gratification was spellbound and beholden with the feeling of compassion and said good bye to the visitors with a promise to meet again for the exchange of same vibes, alacrity and optimism.

The students and staff of DIMR collected funds for Aniket Sevabhavi Sanstha on this occasion and handover the donation to team Aniket Sevabhavi Sanstha

**Objectives of the Event:**

- To make aware the students about historical monuments of Maharashtra
- To sensitize students about the history of Maharashtra during Maratha Empire

**Event Description:**

Tikona Fort, also known as Vitandgad Fort, is a hill fortress in the Maval region of Maharashtra, India. The fort is at an altitude of 3500 feet above sea level and is surrounded by lush greenery and stunning landscapes. The fort is a popular destination among trekkers and adventure enthusiasts, attracting visitors from all over India.

It is a hill fortress built during the 17th century by the Maratha Empire. The fort was strategically built on a hilltop to keep a watch on the surrounding areas and protect the kingdom from enemy attacks. The fort is triangular and surrounded by cliffs and dense forests.

The drive to the fort was scenic and very pleasant. We parked our vehicles at the base of the hill and followed a dirt track that continued upwards as well-worn steps, somewhere early in the climb.

Standing on the top, you get a spectacular 360 degree view of the surrounding area. Pawna lake surrounds the fort from Western and Northern side. There is a valley on the eastern side whereas a cliff connects the fort with an adjacent mountain from south. Beyond the lake on the northern side we can see the twin forts of Visapur and Lohgad forming a formidable wall. Fort Tung, which is surrounded on three sides by Pawna lake can be seen on the west. Korigad lies to south western side of the fort, but it could not be seen due to heavy fog. There is also a small temple on the fort.

The Tikona fort is a complete phenomenon of nature, its beauty and history

**Learning Outcome:**

- The students were aware about the historical events during Maratha Empire

**Objectives of the Event:**

- To make aware the students about historical monuments of Maharashtra
- To sensitize students about the history of Maharashtra during Maratha Empire

**Event Description:**

The students of First Year MBA of 20-22 Batch and the Staff members of DIMR had organized a Trek to Visapur Fort on September 8<sup>th</sup> 2021. Visapur Fort is located in Visapur village situated near Malavali Railway Station which is close to Lonavala. The Fort is a part of twin forts Lohagad-Visapur. The fort has an elevation of 1084 Meters (3556 Feets) from Sea level.

12 students and 8 staff members of the institute participated in this trek. We left the campus at around 6:30 in the morning and after having a breakfast on the way near the Pune-Mumbai old highway junction where one way goes towards Karla Caves (Ekvira Temple) and the opposite road leads you to the Malavali station and then towards the base of twin forts. On the way to the base of the twin forts from Malavali station, you pass by a waterfall and the steps carved in the rocks leading to the ancient Bhaje caves.

We reached the base of the twin forts at around 10 AM and started our trek. The trek route goes through the waterfall and the rain water was cascading through the rocks. We had to climb up through the rocky path against the water flow. It was challenging for few as some rocks were slippery due to algae and some boulders are so big, making it challenging to climb up having to set your foot with a firm grip.

We reached the top of the fort at around 11:30 AM. After reaching the top we started exploring the fort area. It has many lakes which are well built to fulfill the water supply for the people staying on the fort in the days of Mughal and Maratha dynasties. Few of us had a dip and swam in one of the lake. We could see a rich flora and fauna on the sprawling plateau on the top of the fort. The boundaries of the fort hill are fortified with the walls built with the stones, which is damaged at some places. There are few check posts towers built at some strategic points across the surrounding wall. There are around 3-4 cannons placed different check points to keep a vigil on the enemy activity. There is an ancient Shiv Temple with two Nandi carved out of single stones and a Dipstambh in front of the temple. There is a big lake adjacent to the Shiva Temple. There are a remnants of a structure built to store the armaments, gunpowder and cannon balls. It is mentioned in some scriptures that there was a residential structure built by the Peshvas during the rule of Maratha Empire.

We spent around 3-4 hours exploring the fort area and then started descending at around 3 pm. We reached at the base of the fort at around 4 pm. It was raining throughout the day and the climate atop was foggy and had different shades of green all across the mountain range. We had a lunch at around 5 pm at a Dhaba on the highway while coming back. We reached at around 7 pm in the campus.

**Learning Outcome:**

- The students were aware about the historical events during Peshwai
