DESCRIPTIVE REPORT

The Placement Cell of DIMR had organized a guest lecture for the students on the topic 'Overview of Insurance Industry' by Mr. Uttam Pawar.

The speaker highlighted the level of awareness of Insurance in India as compared to that in the countries in Europe and America. The Insurance Industry in India is still at a nascent stage, showing gradual growth and has a long way to go.

There is lot of career opportunities in the Insurance sector in terms of job as well as business prospects with tremendous market potential albeit an apprehensive mind-set of Indians towards the Insurance products as many Indians still feel that paying insurance premium is an unnecessary expense.

The speaker explained the types of Insurance like Travel Insurance, Health Insurance, Auto Insurance, Property Insurance, Crop Insurance and Insurance of Household items, ULIP based Insurance etc.

It was an informative and insightful session for the students with lot of takeaways in terms of learning about the Insurance sector.

DESCRIPTIVE REPORT

The speaker Mr. Vinayak Patil, Head – India Sales, Carling Technologies took the students through the corporate world, its functionalities and the ways to make your mark distinctively. He highlighted the price sensitivity of the market and the frequent price fluctuations of the brands of different companies. He iterated how futile it would be if a salesperson himself is not convinced with what he is selling. This non-conviction about your own offering is the result of lack of awareness and in-depth knowledge about your product, its specifications, distinctiveness and competitive advantages.

He added that a constant thirst for acquiring contemporary skill sets and learning new things like a foreign language if you are working with or wish to make a career in a Multinational company. He ingeminated the importance of being vigilant, robust and not limiting your potential by restricting yourself to the tick of the clock. He emphasized that it is very important to push the envelope and exploit the best of your abilities to be successful in the corporate world.

DESCRIPTIVE REPORT

The whole world is gasping in the Corona Pandemic and everyone was startled to see the World's most fancied economy grappling desolately & topping the list of worst hit in GDP growth.

All sectors including most of the core sectors nosedived except one that stood strong and in fact emerged triumphant with a 3.4% growth...Agriculture! A sector that creates around 60% of employment is opening new business avenues with a mercurial market, evolving customers & capricious technology.

'Webinar on Career opportunities in Agriculture' was a sort of revelations unrolled by the speaker Prof. Iftekhar Khan, touching upon ample lesser known and disregarded but latent avenues in the field of agribusiness. It would be pitiful and unfortunate of us if we don't capitalize on it with the bountiful resources at our disposal.

An overwhelming response from the Agricos and other enthusiastic participants from all across the country made the Webinar really remarkable.

Mr Nitin Thakoor provided comprehensive insights into various entrepreneurial opportunities available within the agribusiness sector. Participants engaged in interactive sessions focusing on key aspects such as market trends, financial planning, risk management, and sustainable practices in agribusiness.

DESCRIPTIVE REPORT

DIMR had organised a seminar on Finding First Job on 31/08/2018 by Mr Mangesh Wankhede. Finding your first job can be an exciting yet daunting task. It marks a significant milestone in one's life, transitioning from education to the professional world.

Mr Mangesh said before embarking on your job search journey, it's essential to understand yourself - your skills, interests, values, and career goals. Reflect on your strengths, weaknesses, and what motivates you. Consider your educational background, internships, extracurricular activities, and any relevant experiences that have shaped your professional aspiration.

Crafting a Compelling Resume- Your resume is your first impression on potential employers, so it's essential to craft a compelling and tailored document that highlights your skills, experiences, and achievements. Customize your resume for each job application, focusing on relevant experiences and qualifications that match the job requirements. Use clear and concise language, and ensure your resume is well-organized and visually appealing.

Networking- Networking plays a vital role in finding your first job. Connect with professionals in your desired industry through networking events, informational interviews, and online platforms like LinkedIn. Build relationships with professionals who can provide insights, advice, and potential job opportunities. Don't underestimate the power of networking, as many job openings are filled through referrals and connections.

Job Search Strategies- There are various job search strategies you can employ to find your first job. Utilize online job boards, company websites, and professional networking platforms to search for job openings. Attend career fairs, industry events, and job workshops to expand your network and learn about potential opportunities. Consider reaching out to staffing agencies or career counsellors for additional support and guidance.

Preparing for Interviews - Once you start receiving interview invitations, it's crucial to prepare thoroughly to present yourself effectively to potential employers. Research the company and the role, prepare responses to common interview questions, and practice your interview skills. Dress professionally, Demonstrate confidence, and showcase your enthusiasm and passion for the role during the interview.
